Experience

Frontend Developer Internship | Internship

Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transformation and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

Freelance Frontend Developer

Self Employed

- Delivered professional websites using HTML5, CSS3 (+ SCSS, BEM), JavaScript and React best practices
- Improved website performance by compressing, catching and lazy loading images and components
- Included SEO, responsive, multi-platform an hosting support, enabling their website to be used by any browser or device in the world

Frontend Developer Support

- Supported many people in different social apps to solve their problems in HTML, CSS, Flexbox, JavaScript and React best practices
- Utilized debugging best practices using Google Chrome inspect element tooling
- Simplified different programming concepts including responsive website development, CSS layout, Promises and API requests
